A1 GARAGE DOORS

Residential Garage Doors

Stylish | Durable | Functional

Garage doors for residential and light industrial premises.

ABOUT A1 GARAGE DOORS

A1 Garage Doors is a locally owned business whose aim is to supply superior garage door products, services and advice at affordable prices to our customers.

Within our workshop we focus on developing skilled and knowledgeable staff who are friendly, reliable and hardworking. Outside of the workshop we are focused on customer satisfaction through delivering superior garage door installations and repairs.

A1 Garage Doors was established in 2003 as a man-in-a-van operation. The customer-focused approach coupled with the delivery of quality products and workmanship meant demand for our services grew quickly. More vans were added and we now have a workshop and multiple mobile service and installation teams supporting customers throughout Auckland.

Company Values

We adhere to company values which characterise every aspect of our business:

- **A passion for what we do** – we know about garage doors and are passionate about sharing our knowledge to provide our customers with the best garage door solution for their unique setting
- **Customer focused** – we often say, "We're not a garage door company; we are a customer service company who sells garage doors." In other words, the needs of each customer come first and are our prime focus
- **The best solution for you** – first we listen to the needs of our customers, then we provide a number of solutions coupled with advice about the one that best suits their situation and budget
- **Choice is important** – it's important to us that our customers understand all the options before making a final decision. That's why we have an extensive range of sectional, roller and tilt garage doors in a variety of textures and colours
- **Honesty, reliability and integrity** – these are the hallmarks of our service. We are quick to respond, honest in what we can deliver, and reliable in terms of quality and meeting your deadlines

What We Offer

At A1 Garage Doors we:

- Provide specifications for new and replacement garage doors
- Provide a quality and reliable garage door installation service
- Service and maintain existing garage doors and openers
- Install garage door openers, converting your manual opening door to an automatic opening door
- Supply and install an extensive range of garage door accessories, including remotes
- Are mobile – we come to you
- Offer a flexible afterhours service if required

- Fully hemmed edges for safety Non-drip between panels – ideal for carpeted garages
- Glazing options available
- Double-skinned heat and noise insulated options available
- Colorsteel insulation options available

Ribline Profile 1

New Zealand's most popular door. Crafted from high-quality materials, Ribline Steel Sectional Garage Doors look like timber and replicate traditional weatherboards without the same need for maintenance. Cost-effective, they are available in a smooth or woodgrain finish. Perfect for weatherboard homes and Skyline garages. Available in two thicknesses.

- 0.55 Coloursteel (WG)
  0.6 Aluminium (S)
- 1.7m - 6.05 wide

- Smooth or textured wood grain finish
- Thermal and noise insulation available
- Window options available

Series A – Domestic

Roller Doors are cost-effective, simple and inexpensive to install and incredibly reliable. Constructed with vertical opening mechanisms, they are the perfect door solution where space is limited because they don't encroach into the garage space like other door styles can do. Available in zinc galvanised steel or Colorsteel.

0.4 Coloursteel

0.87m -3m wide
Up to 3.2m high

Manual or motorised operation

Ten-year warranty

Features

- Cost-effective
- Easy to install
- Long-lasting and durable
- Low maintenance
- Easy to operate (can be manually lifted)

Series B – Light Commercial

Manufactured for light commercial applications such as businesses, workshops, and larger garages. The automated or hand chain opening mechanisms provide swift and quiet operation. Durable materials and customised designs mean functionality, security and good looks. Available in zinc galvanised steel or Colorsteel.

0.4 Coloursteel

0.87m -5m wide
Up to 4.5m high

Hand chain operation can be replaced with motorised operation

Ten-year warranty

Features

- Cost-effective
- Easy to install – larger sizes may require lifting equipment
- Long-lasting and durable
- Low maintenance
- Hand chain operation can be replaced with motorised operation

Classic Tilt Door

The classic Kiwi Tilt Garage Door is well-known for its ease of use and reliability. Cost-effective with no cutback on quality, our Tilt Doors are made to measure for residential and light engineering situations. Durable and tough, they are easy to operate manually but can be automated for your convenience.

- 0.55 Coloursteel 0.55 Zinc Galvanised Steel
- 4.8m wide 2.7m high
- Manual or automatic operation
- Ten-year warranty

Features

- Easy and quick to install
- Ideal in situations where headroom is limited
- Very low maintenance
- Available in zinc galvanised and colour steel
- Long lasting and durable
- Secure T-Handle lock

Custom Tilt Door

With an A1 Custom Tilt Door, the sky's the limit. We can supply a Tilt Door for your garage or shed in any style or metal. For extra natural light or a more stylish look, you have the option of windows. Durable and tough, a Tilt Garage Door is easy to operate manually but can be automated for your convenience.

- 0.55 Coloursteel 0.55 Zinc Galvanised Steel
- Large range of custom sizes
- Manual or automatic operation
- Ten-year coloursteel warranty

Features

- Easy and quick to install
- Ideal in situations where headroom is limited
- Very low maintenance
- Available in zinc galvanised and colour steel
- Long lasting and durable
- Secure T-Handle lock

Horizontal Cedar

A Timber Garage Door blends craftsmanship with classic charm resulting in a doorway that is both classy and stylish. Whether in a traditional or more contemporary style, a timber garage door will provide durability and insulation while adding character to your home.
Combining modern design with the natural beauty of cedar, the horizontal cedar panels add a warmth and appeal to the front of your home.

Extensive range of colour stains

Up to 6.05m wide
Up to 3.3m high

Non Corrosive
Ideal for seaside

Ten-year warranty

Features

- Durable construction
- Can be customised into various styles and finishes
- Curb-side appeal adding warmth and character your home
- Range of painting and staining options
- Ideal finish for high-end properties

Vertical Cedar

Combining modern design with the natural beauty of cedar, the vertical cedar panels provide an interesting alternative to the horizontal pattern of most sectional doors while adding a warmth and appeal to the front of your home. Easily insulated with Novahush insulation.

Extensive range of colour stains

Up to 6.05m wide
Up to 3.3m high

Non Corrosive
Ideal for seaside

Ten-year warranty

Features

- Durable construction
- Can be customised into various styles and finishes
- Curb-side appeal adding warmth and character your home
- Range of painting and staining options
- Ideal finish for high-end properties

Raised Panel Cedar

Classically elegant and manufactured from high-quality cedar, the Raised Panel Cedar Garage Door features raised panels that add a look of depth and sophistication. The natural beauty of cedar is timeless and suitable for a wide range of residential styles. Easily insulated with Novahush insulation.

Extensive range of colour stains

Up to 6.05m wide
Up to 3.3m high

Non Corrosive
Ideal for seaside

Ten-year warranty

Features

- Durable construction
- Can be customised into various styles and finishes
- Curb-side appeal adding warmth and character your home
- Range of painting and staining options
- Ideal finish for high-end properties

Board and Batten

Crafted from high-quality timber, the vertical boards and overlaid battens create a visually striking design that is both inviting and functional. Ideal for most house styles, this could be the crowning glory of your architecturally designed home. Easily insulated with Novahush insulation.

Extensive range of colour stains

Up to 6.05m wide
Up to 3.3m high

Non Corrosive
Ideal for seaside

Ten-year warranty

Features

- Durable construction
- Can be customised into various styles and finishes
- Curb-side appeal adding warmth and character your home
- Range of painting and staining options
- Ideal finish for high-end properties

Barn Style Doors

Inspired by the design of traditional barn doors, the distinctive design of this Barn Style Garage Door gives a rustic charm to your home. Characterised by horizontal planking and crossed-plank overlay, it combines style with functionality for both residential and commercial buildings. The final design is fully customisable.

Aluminium Composite

An Aluminium Composite Garage Door embodies modern sophistication. Constructed from a blend of aluminium and composite materials, it combines sleek and stylish looks with rugged durability. This door provides strength, low maintenance, and insulation, making it an ideal choice for contemporary architecture. With customisable finish options, it seamlessly integrates style and performance for residential or commercial settings.

Flush Mount Doors

A Flush Mount Garage Door epitomises contemporary minimalism. Its appearance is seamless and flat appearance to create a sleek, uncluttered look. Both modern and space-efficient, it offers a functional, great-looking and sophisticated entry for residential and commercial applications.

Ornate Doors

Ornate Garage Doors are the epitome of timeless elegance. With intricate details, embellishments, and craftsmanship, this door will add a touch of luxury to any property and provide an external focal point to your home. You provide the inspiration for the design - whether a traditional style or custom design, an ornate garage door will create a distinctive and visually captivating entry point.

Panoramic Doors

Panoramic Garage Doors redefine openness. With expansive glass panels, they flood interiors with natural light, creating a seamless connection between indoor and outdoor spaces. A Panoramic Sectional Garage Door will invoke a sense of spaciousness and transform your garage into a versatile and well-lit environment.

Panoramic Aluminium

Panoramic Aluminium Garage Doors merge sleek design with expansive views. Crafted from durable aluminium, the large glass panels create a modern and great-looking entrance way. Stylish and functional, these doors allow natural light to flood in, while providing solid durability and low-maintenance.

Frameless Glass Panel

Frameless Glass Panel Garage Doors embody contemporary elegance. From inside, their minimalist design enables unobstructed views while, from outside, they flood your garage interior with natural light. These doors integrate perfectly into modern architecture, giving you a sleek and sophisticated entrance without compromising durability and security.

Frameless Glass Door

Featuring seamless, unobstructed glass panels, a Frameless Glass Sectional Door will create a visually striking entrance combined with the practical benefit of flooding your garage interior with natural light. While being transparent, these doors are durable and secure – an ideal solution for contemporary residential and commercial spaces.

Adding windows to your sectional garage door will both allow natural light into your garage and add that special something to improve the look and the appeal of your home. Ask us about a new garage door with windows fitted at the time of ordering.

Standard Panels Plain

For maximum light and smooth lines, standard plain window panels look classy and sophisticated. They are ideal for garages that have been converted to rooms or workshops where maximum light is required. Looks especially stunning on our short or long panelled pressed panel doors where glass can be used to replace the upper panels.

Features

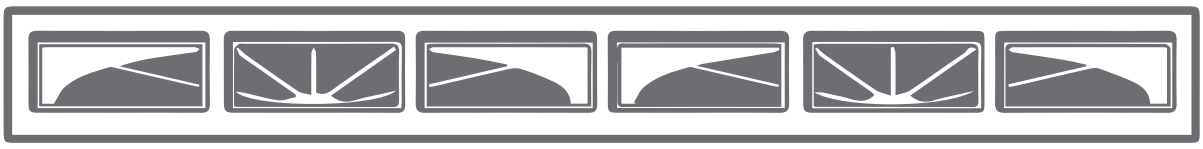

- Windows are 4mm toughed glass for strength and durability
- Glass options include clear, tinted and obscure
- Custom glass options are available, e.g. etched glass with your company logo
- Suitable for steel and aluminium doors only

Window Profile Inserts

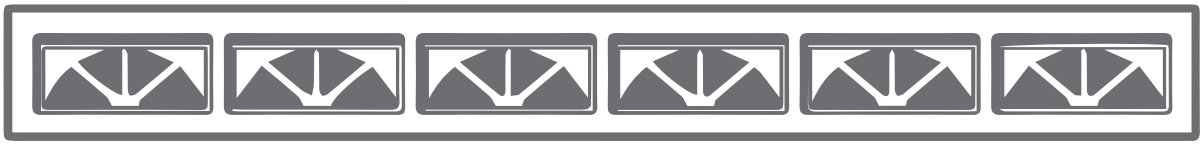

We have a range of attractive window inserts that will add character to your garage door. The choice of insert often depends on the style of home but, whatever pattern you choose, it will add something to the look of your garage door.

We can supply your new garage door with any one of three stylish alternatives:

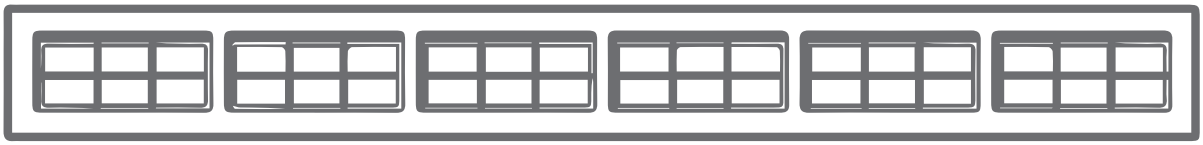

- Sunburst – a curved window insert that breaks the sharp angles of your garage door and creates a sunray pattern stretching across the width of your door
- Sherwood – a more traditional repeated curved style made up of three panes per panel
- Colonial – window inserts made up of a number of small window panes for a traditional look. Ideal for both new and existing homes

Sunburst

Sherwood

Colonial

Novahush

An interior surface lining that can be fitted to your garage door To help reduce external noise, and help keep garage cooler in summer and warner in winter. Installed as a 100% polyester semi-rigid board, it has a Group 1S fire rating and comes in white, white with black face, black or grey.

» The Novahush uses up to 15,000 recycled plastic bottles for a double garage door.

Graphite-infused Polystyrene

This revolutionary product incorporates graphite particles into polystyrene foam, enhancing your garage door's heat insulation and enabling optimal temperature control within the garage. Ensures both a saving in energy costs and internal comfort. Ideal for garages converted to an extra room in your house.

Polyurethane Foam 1.4

Setting the standard for garage door insulation, this thermal retaining foam has a high R-value of 1.4, to minimise heat loss. Polyurethane foam also adds structural strength to garage doors, ensuring durability, smooth operation and optimal performance.

Polyurethane Foam 2.8

With an R-value of 2.8, this Polyurethane Foam ensures superior thermal insulation for your garage while adding to the door's structural strength and ensuring durability, smooth operation and optimal performance.

Sectional & Tilt doors

The 800N and 1200N, garage door openers are designed to lift most residential sectional or tilt doors; the chain driven 1500N is ideal for heavier doors such as those in light industrial buildings. With smooth operation and soft start/stop. The motor head comes with a rail, 2 smart remotes, a wireless wall switch, and a 5-year warranty.

Features

- Belt (800N or 1200N) or chain (1500N) driven
- Integrates with full set of motor accessories
- Manual release in case of power failure
- LED courtesy light
- Option to control with your smartphone

Motors for Roller Doors

Motorise your manual roller door with the quality ET35 garage door motor. Featuring the best modern features available, the ET35 has a soft start / soft stop to reduce stress on the door and operating noise. Safety features include an in-built safety timer to automatically close the door when you forget, and a manual release.

Features

- Powerful DC motor
- Integrates with full set of motor accessories
- Safety reverse function
- LED courtesy light

Motor Accessories

We supply and/or install a full range of motor accessories for all styles of garage door. If what you need is not listed here, please contact our workshop.

Smartphone Compatibility

The ultimate in convenience enabling you to remotely control, monitor and operate your garage doors from anywhere.

Internal Wall Button

Mount on a wall next to your garage door. Easy to programme to can open up to two garage doors.

Extra Remotes

We offer a wide range of replacement remotes for most brands of garage door, and we will ship to most parts of New Zealand.

External Wireless Keypad

Forget carrying garage door keys. Attach this wireless keypad to the external garage wall for easy and secure access. Simple to set up.

Universal Receiver

No more getting out of your car. Programme your garage door or gate to be opened using a wireless remote and drive straight on in.

Battery Backup

Don't get locked out. Our Battery Backup means, even when the power is out, your garage door opener keeps working.

Infrared Safety Beam

Enhance garage door safety with an Infrared Safety Beam which will detect obstacles, prevent unplanned closures and ensure a safe environment during operation.

Autolock

Experience a new level of garage protection – an Autolock will automatically engage your garage door when the door closes, providing an added layer of security and peace of mind.

Emergency Door Release

Designed to disengage the garage door motor from outside the garage allowing manual operation of the door during power outages or if the remote is lost.

Other Accessories

Draft Seal

A quality and well-fitted Draft Seal will prevent dust, drafts and pests from entering and dirtying your garage.

Powdercoated Hinges & Tracks

Upgrade hinges and tracks by powdercoating them. This improves the inside aesthetics of the garage door. Ironsand or black are popular choices.

Bird Proofing Brush

Crucial for roller garage doors, Bird Proofing Brush is installed across the top of the door opening to prevent birds and pests entering.

Select your colour

Colorsteel technology coupled with quality garage door manufacturing

Colorsteel is manufactured and tested to withstand New Zealand conditions, looking great year after year. Colorsteel provides excellent colour performance and is both colour-fade and scratch resistant.

(DSI) Double Skinned Insulated

Powder-Coating Colours

Powder-coating is an excellent option if your preferred colour is not shown on the ColourSteel chart we can colour your steel garage door to almost any available colour.

Please discuss your colour choice with us at the time of ordering.

TimberTec

Now you can have the practicality of long lasting Aluminium or Steel with fine timber finish. No more sanding or painting just a fine timber finish year after year.

TimberTec is the registered name for a process developed by ColourTec NZ to produce a realistic high definition timber finish look on powder coated surfaces. To view, scan the QR code and scroll down to TimberTec.

Timber Stains

Easy to use. Easy to maintain. Beautiful to look at.
Highlight the natural beauty of timber while powerfully protecting it to extend service life. Style with substance, CUTEK® products are user-friendly, allow easy maintenance and celebrate the unique grain, texture and colour of your wood.

Wet Paint

For the perfect colourmatch to your house, wet paint is the best option.

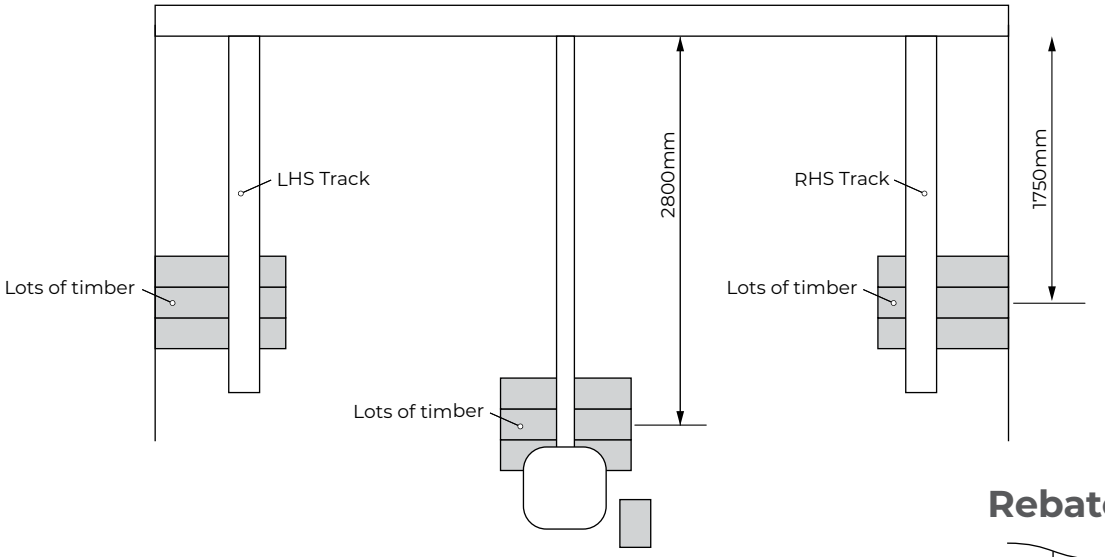

There are 3 options to choose from out of PPG, Resene or Dulux.

A note about colours

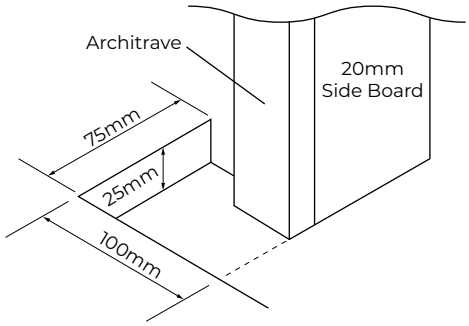

The colours in the chart above, or any other colour chart used, are a guide only. The printing processes used in producing this and other colour charts can result in the colour presented being slightly different from that on the completed door. If you require a precise colour match, please request a steel colour sample.
